The CEPN (Centre d’Economie de Paris Nord) of the University of Paris 13 wishes to appoint a person to a one year fixed-term post-doc in Economics. Candidates should hold a PhD in economics or be in the process of completing one. She / he is not required to be able to speak French.

The successful candidate will contribute to the Post-Keynesian research led at the CEPN, and more particularly by the working group “Post-Keynesian Analyses and Modelling.” The CEPN would be particularly interested in candidates who have a research expertise in Post-Keynesian modelling, and particularly in one of the four most important fields of this modelling: stock-flow consistent models a la Godley- Lavoie; Kaleckian models of growth and income distribution; Kaldorian models with path dependency and cumulative causation; disequilibrium models of the business cycle a la Flaschel. In this framework the main issues to study would be the relation between inequality and growth, the finance-led growth regime and its crisis, the international disequilibrium and its persistency, the links with compared political economy.

Candidates should submit the following documents: a CV, a covering letter, a 2 pages scientific project (for the next years, and more particularly during the time he would spend at the CEPN), and one or two reference letters.

The documents should be sent no later than Monday, March 2\textsuperscript{nd}, 2009, to Jacques Mazier (mazier@univ-paris13.fr), with a copy to Donatella Gatti (gatti@univ-paris13.fr), Pascal Petit (Petit.Pascal@univ-paris13.fr) and Dany Lang (dany.lang@univ-paris13.fr).

For informal inquiries and further information please contact dany.lang@univ-paris13.fr.
