

2nd Call for Papers

The 4th Bi-Annual Cross-Border Post Keynesian Conference “Financial Crisis and Reform”

Economics & Finance Department
Buffalo State College, Buffalo, NY, USA
October 9-10, 2009

The Economics and Finance Department at Buffalo State College (SUNY) invites papers and participants for the 4th Bi-Annual Cross-Border Post Keynesian Conference in October 2009. Following the tradition of the Conference which was held in Vermont (U.S), Ottawa and Montreal (Canada), we are encouraging Post Keynesian scholarship. While the main theme is “**Financial Crisis and Reform**,” the Conference is also open to all perspectives and topics. Selected papers will be published in a conference volume.

Both complete session and individual paper proposals are welcome. Interested contributors are requested to send proposals using the form found at the Conference website (<http://buffalostate.edu/economics/pk2009.xml>). A complete session proposal should include 3-4 papers, 1-2 discussants and a session chair. We also encourage proposals from graduate students. The deadline for proposed papers and session is **April 1, 2009**. The Conference committee will consider all proposals and notify you of acceptance or rejection by **April 30, 2009**. Presenters should submit the full paper by **September 1, 2009**.

We have invited renowned scholars and policy makers for the keynote session. Confirmed speakers are **Jan A. Kregel** (United Nations and University of Missouri–Kansas City), **Robert Pollin** (University of Massachusetts–Amherst), and **L. Randall Wray** (University of Missouri–Kansas City and Levy Economics Institute).

In addition to the Conference program, our Conference venue, the **Burchfield Penny Art Center** at Buffalo State College, is organizing a special art exhibition, a concert, a film on the “Great Depression” during the Conference. Not to mention, *New York Times* (January 11, 2009) announced that the Burchfield Penny Art Center is the one of 44 places to go in 2009 (http://www.nytimes.com/interactive/2009/01/11/travel/20090111_DESTINATIONS.html). Tours of Buffalo’s famous architecture (including buildings by Wright, Sullivan, and Richardson) and Niagara Falls will also be arranged for participants and their guests.

Other conference information (registration, accommodation, travel, etc) can be found at <http://buffalostate.edu/economics/pk2009.xml>
