

ISET European Interdisciplinary Seminar Series

Autumn 2009

Sustaining Diversities

The ISET seminar series addresses key issues in the making and remaking of Europe, whether social, political, economic or cultural. Its concerns extend beyond Europe's borders to the global challenges of the twenty-first century.

In the contemporary conjuncture of economic crisis, escalating environmental threats, and conflicts between cultures, ethnic groups and political formations, the Autumn 2009 series asks how we can sustain cultural, political and linguistic diversities, as well as the economic and environmental conditions necessary for human and ecological flourishing
