

Heterodox Economics Newsletter

Issue 334 — October 29, 2024 — [web](#)¹ — [pdf](#)² — [Heterodox Economics Directory](#)³

It has been on the news that three economists – [Daron Acemoglu](#)⁴ , [Simon Johnson](#)⁵ and [James Robinson](#)⁶ – received a famous prize⁷ for their work. According to my somewhat superficial impression the euvre of the laureates is quite broad and heterogenous providing more (e.g. [here](#)⁸) or less (e.g. [here](#)⁹) nuanced takes on the driving forces of economic development. Similarly, these authors contributed to the increased visibility of important concepts and topics like path dependence, colonization or technological unemployment within the economic mainstream. However, at the same time, they often employed these notions in very simplified, potentially misleading ways (as probably [here](#)¹⁰). Quite ironically, this charge of over-simplification could also be levied with respect to the official 'illustrations' attached to the official press release (see [here](#)¹¹ , [here](#)¹² or [here](#)¹³).

Against this ambivalent backdrop it is not all too surprising that stances taken by critical commentators similarly covered a broad spectrum. In sum, I have come across three types of contributions: For one, I read comments that criticize the work of the laureates for being lopsided in terms of theory and policy (e.g. [here](#)¹⁴) or for making empirically implausible and badly substantiated arguments (see, e.g., [here](#)¹⁵ or [here](#)¹⁶). For another, some voices indicated that there exists a noteworthy aspect in the works of this year's laureates that has already been preconceived by some heterodox author several decades ago (see, e.g., [here](#)¹⁷ and [here](#)¹⁸). Finally, some people focused on how most official statements spotlighted aspects of the laureates' work that are well compatible

with mainstream economics and neoliberal policies, although these works also contain more critical, less mainstream notions (e.g. [here](#)¹⁹).

At first sight these responses might seem contradictory, but eventually most of these comments are valid in the sense that some aspects of the laureates' work are indeed highly controversial and often rightly so. A key example is probably given by the widely held notion that 'good institutions', often understood as a minimal state, is the main source of economic growth. However, at the same time, their work is in many instances creative and sometimes aiming to push the mainstream to new boundaries. Hence, I think it is a good idea of the editors of the *Journal of Institutional Economics* to take this multi-facetness as an opportunity to set up a call²⁰ inviting contributions discussing the works of 'institutional economists', who were honored as 'Nobel'²¹-prize laureates in past. While it might be a highly controversial choice for some to include this year's laureates in the cluster of 'institutional economics', such controversy is in my experience often a good starting point and motivation to dig deeper into a certain topic and, hopefully, learn something new ;-)

All the best,

Jakob

10th CIRIEC International Research Conference on Social Economy (Bordeaux, Oct. 2025)

27-29 October 2025 — Bordeaux, France

The CIRIEC (International Centre of Research and Information on the Public, Social and Cooperative Economy) and the Territories of the Social Solidarity Economy Chair (Chaire TerrESS) invites you to attend the 10th International Research Conference on Social Economy, to be held in Sciences Po Bordeaux, France, from 27 to 29 October 2025.

The conference is an international meeting place for senior and early-stage researchers interested in the whole range of the social economy components (cooperatives, mutuals, associations, foundations), to exchange ideas and works. It will take place a few days before the [Global social and solidarity economy forum \(October 29-31\)](#)²², the international forum for local authorities and SSE organisations, so you can extend your stay in Bordeaux. Come and exchange ideas with senior and early-stage researchers interested in the whole range of the social economy components.

Topics of the call for papers:

- SSE statistics, reporting and social impact measurements
- SSE and the ecological and energy sectors
- SSE territorial ecosystems and transition
- SSE identities, hybridizations and innovation
- Financing the SSE and its organizations
- SSE networks and public policies
- SSE, education & civic rights
- SSE, decent work and the informal economy
- SSE and the fight against poverty and the economics of care
- SSE and agri-food systems
- Commons and cooperative public services
- SSE and intersectionality

Please find further information on the [website](#)²³.

Submission Deadline: 15 January 2025

²²<https://bordeauxgsef2025.org/>

²³<https://ciriecbordeaux2025.org>

28th Annual ESHET Conference (Torino, May 2025)

22-24 May 2025 — Torino, Italy

The Conference's theme is: **"It's the end of economics (as we know it)", or the changing status of economics from a historical perspective.**

Conference venue: Università di Torino, Campus Luigi Einaudi, Lungo Dora Siena 100A, 10153 Torino. Designed by Norman Foster, the Campus Luigi Einaudi has been included by CNN among the [10 most spectacular university buildings²⁴](#) in the world, and hosts the Scuola di Scienze giuridiche, politiche ed economico-sociali of Università di Torino.

The main conference sponsors are: Dipartimento di Economia e Statistica "Cognetti de Martiis" ([website²⁵](#)) and Fondazione Luigi Einaudi, Torino ([website²⁶](#))

Conference website: <https://www.eshet-conference.net/torino/>²⁷

Instagram: <https://www.instagram.com/eshet2025/>²⁸

Proposals for papers or sessions on all aspects of the history of economic thought are welcome.

As usual, participation in the conference is restricted to ESHET members. You cannot complete your conference registration if you are not an active member.

To join or renew your membership, please go to:

<https://www.eshet.net/how-to-become-a-member-or-renew-membership/>²⁹

Note that there are at least 10 other [good reasons³⁰](#) to participate in the ESHET Conference in Torino.

Call for papers

The main topic of the 28th ESHET Conference in Torino, 2025, is the changing face of economics, or the "end" of a traditional view of the discipline under the impact of three main forces.

- First, specialization in research and the fragmentation promoted by the prevalence of a find-your-niche approach, as a pragmatic solution for the otherwise unmanageable burden of previously accumulated knowledge.

²⁴<https://edition.cnn.com/travel/gallery/spectacular-university-buildings/index.html>

²⁹<https://www.eshet.net/how-to-become-a-member-or-renew-membership/>

³⁰<https://www.turismotorino.org/en/territory/walktastebreath/10-good-reasons-visit-torino>

- Second, the ever-increasing prestige of empirical research and the “applied turn” in economics, favored by new techniques and (big) data, but also by economics’ policy orientation.
- Third, the new interdisciplinarity of economics and the transformative impact other disciplines are having upon it, as demonstrated by the variety of research programs in mainstream economics.

The future - and present - of economics is at a crossroads. The abovementioned factors are driving the discipline away from theory – from both standard theory but also, in general, from theory itself. On one side, economics seminars and papers increasingly appear as exercises in applied econometrics using hitherto unexplored databases for purposes of policy evaluations. On the other, the mainstream of the discipline seems characterized by unprecedented variety, being populated by a series of research programs that deviate from the neoclassical core and have their origins in other disciplines. From the monism of neoclassical theory, during the decades of economics imperialism - when economics was mainly theoretical - to today’s fragmentation: it’s (or may be) the end of economics as we know it. While economics is now threatened by the risk of losing identity, with the fading out of (theoretical) foundations, it can explore an opportunity of pluralism, directing attention toward frontier issues, like innovation, sustainability, and gender, that most profit from the discipline’s applied turn and its new openness to neighboring social sciences.

The conference addresses the changing status of economics from a historical perspective. We welcome submissions on the conference theme and any topic in the history of economics and economic thought. The conference wants to examine, in particular, how economists have perceived their own research work and what, historically, societies expect from them or how societies react to their prescriptions. It aims at exploring the evolving connection between research technologies and how knowledge develops in economics, also in the light of the more general, philosophical issue of the persuasive power of technique in the present world. It seeks to analyze the shifting boundaries between economics and other disciplines, while generally reflecting upon economics’ insularity and desire for independence and the necessary interconnections with other sciences that the development of economics itself seems historically to require.

“Last generalists” at an epoch of fragmentation, or specialists themselves among many others, historians of economic thought will be thus concerned with the importance of theory in structuring economics – the space occupied by theory in economics – and the importance of economics’ structure on theory – that is, how the core-periphery organization which traditionally separates the orthodoxy of neoclassical economics from heterodox approaches has impacted upon economic theory and how it is changing.

Submissions

The deadline for submitting abstract or session proposals is February 6, 2025.

The abstract should not exceed 400 words for a paper and 600 words for a session.

Authors must select a "submission area" identifying the paper's main topic.

In the case of session proposals, submissions must be done individually: the title of the session should be mentioned either in the title of the paper or in the abstract.

Authors are notified of acceptance by February 20, 2025.

Please note that:

- a) published papers are not eligible for submission;
- b) only one conference presentation is allowed per person (but more than one submission may be accepted if involving co-authors who are also presenting);
- c) session proposals must conform to standard format (3 papers, 90 minutes).

ESHET Young Scholars Seminar

ESHET invites young scholars - persons currently enrolled in a PhD, or who have been awarded a PhD no more than two years before the date of the ESHET conference (and regardless of age) - to submit their work to the Young Scholars Seminar to be held on the occasion of the ESHET 2025 conference. Papers co-authored by PhD supervisors or other senior researchers are not eligible.

The grants for the scholars selected for the Young Scholars Seminar are sponsored by the [European Journal of the History of Economic Thought](#)³¹ . Up to six submissions will be selected.

For those selected presenters who attend the conference in person, the travel expenses will be covered up to €300, the accommodation costs up to €80/night for three nights, and no registration fee will be charged. Moreover, the grantee scholars will be invited to the conference dinner. The authors of the selected papers will have 20 minutes each to present the paper, and a senior scholar will discuss it. Papers may be on any topic relevant to the history of economics and are not restricted to the conference theme.

ESHET encourages young scholars to participate in the conference. A one-year ESHET membership is offered to all young scholars who submit a paper. Papers not selected for the grant will be considered for presentation at other ESHET 2025 conference sessions.

Candidates should e-mail a paper no longer than 9000 words to eshet2025@unito.it³² (to the attention of Sylvie Rivot and Estrella Trincado) by February 22, 2025.

³¹<https://www.tandfonline.com/journals/rejh20>

³²<mailto:eshet2025@unito.it>

Committees

Local organizing committee: Mario Cedrini (Università di Torino), Angela Ambrosino (Università di Torino), Stefano Fiori (Università di Torino), Alain Marciano (Università di Torino), Valentina Erasmo (Università di Torino), Alessandro Le Donne (Università di Torino), Antonella Palumbo (Università Roma Tre), Antonella Rancan (Università del Molise)

Scientific committee: Mario Cedrini (Università di Torino), Angela Ambrosino (Università di Torino), Maria Daou (Université de Montpellier), John B. Davis (Marquette University and University of Amsterdam), Pedro Duarte (INSPER Institute of Education and Research, São Paulo, Brasil), Danielle Guizzo (University of Bristol, UK), Sylvie Rivot (UHA Business School, Université de Haute-Alsace), Claudia Rotondi (Università Cattolica del Sacro Cuore, Milano), Richard Sturn (Universität Graz)

Università di Torino and Fondazione Luigi Einaudi

Università di Torino ([Unito](http://www.unito.it/)³³) is one of the most ancient, prestigious, and largest Italian Universities. Open to international research and training, Unito carries out scientific research and organizes courses in all disciplines, except for Engineering and Architecture. Hosting almost 80.000 students and with 120 buildings in different areas in Turin and in key places in Piedmont, Unito can be considered as “city-within-a-city”, promoting culture and producing research, innovation, training and employment.

Established in 1964 with the donation of Luigi Einaudi’s collection, nowadays the Fondazione Luigi Einaudi ([website](https://www.fondazioneeinaudi.it/en)³⁴) represents a landmark for social sciences. Over the years, the continuous growth of the library and the archive, together with the support given to young scholars through the scholarships, the promotion of publications and the organization of seminars and conferences have allowed the Foundation to fulfill its mission, making knowledge increasingly more accessible.

Important dates

- Feb. 6: Abstract and session submission
- Feb. 20: Acceptance notification
- Feb. 22: Deadline for Young Scholars submissions
- Apr. 22: Deadline for early bird registration
- May 04: Deadline for uploading papers

³³<http://www.unito.it/>

³⁴<https://www.fondazioneeinaudi.it/en>

- May 12: Deadline for late registration
- May 22: Start of the Conference
- May 24: End of the Conference

What will make ESHET2025 a successful conference?

We are eager to receive your thoughts about how ESHET2025 should be.

Send us suggestions, and feel free to contact us for any inquiries: eshet2025@unito.it³⁵

AFIT@WSSA: "Historical Insights and Modern Solutions: Navigating Polycrises and Achieving Social Justice in a Globalized Digital World" (Seattle, April 2025)

April 2-5, 2025 — Seattle, Washington

The 46th Annual Meeting of AFIT is scheduled for April 2-5, 2025 in Seattle, Washington in conjunction with the 67th Annual World Social Science Association (WSSA) Conference on: "**Historical Insights and Modern Solutions: Navigating Polycrises and Achieving Social Justice in a Globalized Digital World**"

The Association for Institutional Thought (AFIT) invites you to submit papers and/or propose full sessions for this year's conference. This year's theme emphasizes work that integrates historical perspectives with contemporary challenges, emphasizing the importance of learning from the past to address current and future issues in social justice, institutional resilience, and digital globalization.

The full **Call for Papers** is available on our [website](#)³⁶ and [here](#).³⁷

All papers and proposals for the AFIT sessions must be submitted via the WSSA website: <https://wssaconference.com/>³⁸ no later than December 20th, 2025, under the "Submit Abstract" tab (you will need to login with your WSSA account first). Late submissions after December 20 and before January 10 will be charged an additional \$25 administrative fee as per the WSSA regulations. Submissions will not be accepted pasted January

10. Please keep abstracts to 200 words or less.

Proposals for complete sessions are strongly encouraged. If you are proposing a full panel, please have each individual author submit their abstract through the WSSA portal first **AND** then email Mila Malyshava directly (lmalyshava@skidmore.edu³⁹) with your panel details (title of your panel, each authors name, and their respective paper titles and affiliations).

In order to present at the conference, participants must have active AFIT membership. Please update your AFIT membership here: <https://www.institutionalthought.org/membership>⁴⁰ . You must also register for the WSSA 2025 Conference. Online conference registration is open on the WSSA website. Please note that the early bird conference registration ends on November 1, 2024 (<https://www.wssaconference.com/2025-conference-registration-early>⁴¹).

Please contact Mila Malyshava with any inquiries about submissions or conference proceedings: lmalyshava@skidmore.edu⁴² .

Submission Deadline: 20 December 2024

Call for Papers: 8th International ASTRIL Conference on” The Future of Work: Technical Progress, Artificial Intelligence, and Working Times” (Rome, Jan. 2025)

January 24–25, 2025 — Roma Tre University, Italy (blended Mode, virtually and in-person)

The impact of technological progress on labour market outcomes and income distribution is a key topic on both academic and political agendas. Recently, the rise and spread of Artificial Intelligence (AI) has added a new dimension to this topic given the revolutionary changes it brings to the organization of production and the role of workers in the labour process. The proliferation of AI has created huge opportunities for automation and the substitution of human labour. At the same time, the demand for new skills has sparked a critical need to rethink workforce training and education.

These changes are reshaping both labour demand and labour supply with significant implications for policy decisions, not only in terms of industrial and production poli-

³⁹<http://lmalyshava@skidmore.edu/>

⁴⁰<https://instutuionalthought.us18.list-manage.com/track/click?u=b789b9c01496aab88c5884b02&id=70b5c1c353&e=aaaae8bc3a>

⁴¹<https://instutuionalthought.us18.list-manage.com/track/click?u=b789b9c01496aab88c5884b02&id=0e4b294c23&e=aaaae8bc3a>

⁴²<https://instutuionalthought.us18.list-manage.com/track/click?u=b789b9c01496aab88c5884b02&id=032a30fad5&e=aaaae8bc3a>

cies, but also in the realms of welfare, income distribution, and education. With regard to the labour market, the acceleration of automation, combined with the stagnation of overall labour productivity and the poor performance of real wages in many capitalist economies—particularly in Europe—brings the issue of changing working times and increasing the standard of living of population to the fore. The manner in which those changes should take place, the sectors affected, and their potential impact on both personal and functional income distribution are all critical questions. All stakeholders, especially governments and trade unions, play a crucial role in managing these transformations.

We cordially invite scholars, researchers and experts in economics to submit their papers and join us at the **Eighth International ASTRIL Conference** where we will explore the multifaceted challenges and opportunities that are emerging in the evolving labour market landscape. Together with contributions on all aspects related to the evolution of the labour market, those in the following topics are particularly welcome:

1. Labour Demand and Supply: their Changes and the Multifaceted Challenges for Public Policy

The effects of robust innovation can be asymmetric and may lead to labour market marginalization. While new employment opportunities emerge, others become obsolete, resulting in adverse consequences for individuals' incomes and social sustainability. These processes may also lead to an increase in the level of unemployment and under-employment that persists over time, according to the kind of technical progress, the sectors involved, and their geographical localization. As a result, a comprehensive policy approach encompassing active labour market policies, minimum wage regulations, unemployment benefits and social welfare provisions must be implemented to address these challenges.

2. Structural Change, Labour Productivity and Working Times: The Role of Social Partners and Legislation

The impact of innovation on the labour market is a subject of ongoing debate in the academic literature. From a policy perspective, there is a pressing need for proactive and transparent measures also involving a reduction in working hours and changes in the work-life balance. The modalities in which these changes will occur and their effects on labour productivity and income distribution are all issues to be analysed, also in light of the phenomenon of the working poor. A crucial role in this respect must be ascribed to wage bargaining and an appropriate system of tax incentives in order to ensure that both workers' standards of living and firm competitiveness are maintained.

3. Macroeconomic Policies, Budget Constraints and Income Distribution

The wave of technical innovations may have macroeconomic effects that should be addressed by appropriate fiscal and monetary policies. However, EU countries are reverting to fiscal regulations that enforce austerity in order to respect the Stability and Growth Pact. Furthermore, the stringent monetary policy implemented by the European Cen-

tral Bank after the increase in prices determined by the war in Ukraine has been only partially reverted, while nominal wage growth has not yet ensured full recovery in real wages, especially in countries such as Italy, sharpening the low rise in wages compared with labour productivity that has led on average in the last decades in the main industrialized countries to a fall in the wage share. Therefore, how to reform the European institutional context and which monetary and fiscal policies should be implemented in order to improve the standard of living of the European population are relevant issues, especially when considering the social measures needed to face the structural changes determined by technical progress.

Submission

Please write the topic that the paper refers to (1, 2, 3) in the abstract and send it or the session proposal (4 papers at least) to: astril@uniroma3.it. If the abstract refers generically to the evolving labour market, state that it concerns topic 4.

Deadlines

- Abstracts and session proposals (300-500 words): 25 November 2024
- Notification of acceptance: 8 December 2024
- Delivery of papers: 8 January 2025

Conference on Political Capitalism (Budapest, May 2025)

**Corvinus University of Budapest — Hungary, 1093 Budapest, Fővám tér 8.
— 15-16 May, 2025**

The topic of our conference is “political capitalism”, a special variant of capitalism that has been highlighted first by Max Weber (1905, 1922). It refers to capitalism in *distribution* sphere before the advent of market capitalism in *production* sphere in the nineteenth century. Political capitalism describes profit-making or rent seeking through non-market channels. It was prevalent during the Roman and Chinese empires during wartime and in the Middle Ages, however, rent seeking through political channels is not limited to Antiquity or Middle Ages. It existed before the advent of market capitalism, but it also developed after the rise of modern capitalism. Different non-market channels include not only the state, political parties and groups, or political figures but also religious and military organizations. The influencers comprise a wide range of power centers that can exercise organized and coercive supra economic force.

The conference aims to deepen our understanding on the diversity of capitalisms notably political capitalisms in contradistinction with market capitalisms, namely profit-making through competitive market channels. The conference welcomes scholars with different

scientific stance in social sciences (economics, development studies, law, history, political science, sociology, psychology, anthropology, international relations studies, etc.). Scholars of two fields of multi-disciplinary studies are especially encouraged to participate i) comparative and institutional studies; ii) political economy of capitalisms.

The aim of the conference is to offer a state-of-art introduction of the research on political capitalism.

Some of our research questions:

- What are the relationships between political capitalism and market capitalism?
- What are the relationships between political capitalism and market and state failures?
- What is the place of rent-seeking and monopoly in promoting political capitalism?
- What are the differences between political capitalism in the past and present?
- How political capitalism can be characterized theoretically?
- What does explain the diversity of political capitalism?
- What is the place of corruption in political capitalisms?
- Is there a specific accumulation regime for political capitalisms?
- What are comparative advantages and disadvantages of political capitalisms?
- What is the impact of political capitalism on economic performance and development?
- What are the efficiencies and inefficiencies of political capitalism?
- What is their impeding and enhancing role in promoting market capitalism?
- What is their impact on institutionalization of specific forms of political power, namely liberal democracy, autocracies, illiberal democracies, etc.?
- What is the relation between political capitalism and populism?
- What is the role of fundamental laws particularly constitutional laws in promoting capitalism?
- What is the relation between political capitalism and state predation?
- What is the relation between political capitalism and developmental state?

We welcome papers focusing on theory, historical background of political capitalism, micro, meso, macro and country wide studies of political capitalisms at world level. All methodological approaches are welcome.

We acknowledge the variety of theoretical perspectives in tackling the issue of political capitalism. There exists a burgeoning literature on the topic that includes Marxist, Austrian, Institutional, Keynesian approaches, etc. Theoretical papers may approach political capitalism from different perspectives, enriching the literature and illuminating the boundaries of political capitalism in relation to state capitalism, state socialism, fascism, and crony capitalism.

The rise of state in modern capitalism with all its power to regulate markets has been the target of scrutiny by economists studying rent-seeking, capture, and predatory measures. Corporate raiding, revolving doors and state predation are a few illustrations of modern capitalism all over the world particularly in the USA, Russia, China, Middle East and North Africa, Latin America, and Post-Socialist countries. The presence of political capitalism is widespread not only at macro- but also meso- and microlevels. Political enterprises, different sectors (natural resources, infrastructure, health sector, social protection, finance, service sectors, etc.). This explains the relevance of specific forms of political capitalism in understanding the role of collusion between the state and the private sector in rent-seeking. We invite all scholars focusing on these issues to submit their contributions to the conference.

Keynote speakers:

- **Philippe Aghion:** College de France, INSEAD, London School of Economics (on-line)
- **Pranab Bardhan:** University of Berkeley
- **Vladimir Gel'man:** University of Helsinki
- **Randall Holcombe (tbc):** Florida State University
- **Claude Menard:** University Paris 1, Pantheon-Sorbonne
- **Branko Milanovic:** City University of New York
- **Mehrdad Vahabi:** University of Sorbonne Paris Nord (USPN)
- **Chenggang Xu:** Stanford University

We will organize the conference in a hybrid format. Participants who wish to join online will have the option to give a presentation or remotely listen to the conference presentations.

PhD session

During the conference, we will organize a special session for PhD students conducting research on the topic of political capitalism. The papers they submit will be reviewed by the organizers with the involvement of renowned experts in the field, who will provide suggestions for revisions. The editors of the Handbook of Political Capitalism will offer the best papers the opportunity to be published in the handbook.

Submission Requirements and Procedures

Deadline: The submission deadline is 15 November 2024; late submissions will not be considered. Acceptance or rejection notices will be issued by mid-December.

Submissions: Please submit your individual abstract by email to politicalcapitalism@uni-corvinus.hu⁴³.

A proposal for presentation of a paper or for presentation in a panel *must* include the following:

- Names & full contact details of Corresponding Author.
- Name & full contact details of Presenting Author.
- Listing of all authors of the paper, including affiliation and email addresses.
- Title of the paper.
- Abstract (max. 300 words).
- 2 JEL codes.
- 3 keywords.

You can propose a panel as well. Each panel should have 3 or 4 contributors. If you are proposing a panel, please ensure that the required information about each individual contributor on the panel is submitted, and that the contributor includes with the submission the title of the panel and the panel organizer's name. A proposed panel with fewer than 3 papers / contributors can see their proposed panel complemented with additional contributions.

Submission of final papers: Please submit your paper not later than 1. May 2025 by email to politicalcapitalism@uni-corvinus.hu⁴⁴. Only submitted full papers can be presented.

⁴³<mailto:politicalcapitalism@uni-corvinus.hu>

⁴⁴<mailto:politicalcapitalism@uni-corvinus.hu>

Requirements for submitted papers:

- Text of your paper cannot exceed 10,000 words,
- Reference style: APA

Publication

Full papers submitted and presented at the conference are eligible for consideration for publication in the *Handbook of Political Capitalism*. Acceptance notice will be issued till 31 of May 2025.

Accepted paper can be revised and resubmitted till 1. September 2025.

Conference fee

The conference fee is 100 euro (both for in-person or on-line participants). Participants are responsible for covering their own travel, accommodation, and other expenses.

Information for payment:

- Name: BUDAPESTI CORVINUS EGYETEM
- Account number: 11763842-01079885
- IBAN: HU20 1176 3842 0107 9885 0000 0000
- SWIFT/BIC: OTPVHUHB
- Name of the bank: OTP Bank
- Description of transaction: Full name of participant + PPESD1603T + Conference on Political Capitalism

If you need an invoice, please provide us the **billing information**:

- Billing name:
- Country:
- Postal code:
- City:
- Street number:
- Vat Number (if you need an invoice to a company):

- Contact details: (name and e-mail address):
- Send this information to: politicalcapitalism@uni-corvinus.hu⁴⁵, subject of your e-mail: invoice and your name

Organizers:

- Corvinus University of Budapest, Corvinus Institute of Advanced Studies, and Institute of Economics
- University of Sorbonne Paris Nord, Centre d’Economie de l’Université de Paris Nord
- The Hungarian Society for New Institutional Economists

Submission Deadline: 15 November 2024

DSA2025 Conference on "Navigating crisis dangers and opportunities in development" (Bath, June 2024)

25–27 June 2025, Hybrid at University of Bath

[#DSA2025 conference](#)⁴⁸ will take place as a hybrid conference and will be organised and hosted by the [Centre for Development Studies, University of Bath](#)⁴⁹. The conference convenors are Mihika Chatterjee, Lecturer in International Development and Aurelie Charles, Senior Lecturer in Global Sustainability.

Format: Similarly to the last two years, the conference will be hybrid allowing for delegates to attend in-person or remotely. There will be a range of panel formats including paper, roundtable and experimental panels, such as debates, speed meetings and more.

Accessing the conference

As a hybrid conference, all the sessions will be recorded and later uploaded to the conference website. More details to follow.

⁴⁵<mailto:politicalcapitalism@uni-corvinus.hu>

⁴⁶<mailto:miklos.rosta@uni-corvinus.hu>

⁴⁷<mailto:mehrdadvahabi@orange.fr>

Funding

DSA2025 offers partial funding for our delegates to cover their travel and accommodation expenses. Keep an eye out for the call for funding via the website. [Propose a Panel](#)⁵⁰

The theme of the conference is Navigating crisis: dangers and opportunities in development.

The world has been experiencing profoundly unsettling times and compounding experiences of crisis in the continual unfolding of capitalist development. Alongside rising inequalities, inflation, and enforced austerity, people have been subjected to an admixture of dangers: escalating wars, polarised politics, recurring health emergencies, and deepening ecological crises. Policymakers are increasingly referring to a ‘polycrisis’, where global risks come together to exceed the sum of their parts. Yet, alongside profound dangers, crises always generate commensurate opportunities for transformation and positive change. We invite reflections on how this danger/opportunity dialectic at the heart of crisis and capitalism is playing out in the field of development.

At DSA 2025, we invite colleagues to wrestle with the ways in which development theories and practices, contested epistemologies and methodological challenges confront crises and uncertainty, and contribute (or not) to new opportunities for positive change. Some potential questions to grapple with include:

1. How have development plans and visions been shaped by deepening and pervasive crises and uncertainty?
2. How do expectations and dreams of the future impact the contested purpose of development and its many ideas of progress?

[Find out more about the conference theme](#)⁵¹

Journal of Institutional Economics: Call for Papers on Nobel laureates in institutional economics

After the recent announcement that the **2024 Sveriges Riksbank Prize in Economic Sciences in Memory of Alfred Nobel** has been awarded to Daron Acemoglu, Simon Johnson, and James Robinson, there are now 11 Nobel laureates cited for work in institutional economics (broadly defined):

- **Daron Acemoglu** (2024)
- **Simon Johnson** (2024)

⁵⁰<https://www.devstud.org.uk/conference/conference-2025/cfpan/>

⁵¹<https://www.devstud.org.uk/conference/conference-2025/theme/>

- **James A. Robinson** (2024)
- **Elinor Ostrom** (2009)
- **Oliver E. Williamson** (2009)
- **Douglass C. North** (1993)
- **Ronald H. Coase** (1991)
- **James M. Buchanan** (1986)
- **Herbert A. Simon** (1978)
- **Friedrich A. Hayek** (1974)
- **Gunnar Myrdal** (1974)

In celebration of these achievements in institutional economics, the editors of the *Journal of Institutional Economics*⁵² are pleased to issue this call for papers. We are asking for papers that focus on at least three Nobel Laureates on this list and offer critical evaluations of their work and its impact. Please take into account these Notes for Contributors before submitting your article: <https://joie-blog.net/journal/notes-for-contributors>⁵³. There is no deadline for submissions. Accepted articles will be published as an ongoing series.

Geoffrey M. Hodgson (Loughborough University London, UK), **Esther-Mirjam Sent** (Radboud University, Netherlands), **Richard N. Langlois** (University of Connecticut, USA), **Jason Potts** (RMIT University, Australia), and **Claudia R. Williamson** (University of Tennessee at Chattanooga, USA)

Revue de la Régulation: Special Issue on "From Croesus to Nakamoto, how currencies emerge: between practice and theory"

There is a vast panorama of work on money in the social sciences. They focus on the many facets of money, but pay little attention to the conditions of its emergence. From a multi-disciplinary perspective, this call for papers seeks to shed light on the emergence and conditions of existence of currencies and the mechanisms associated with them. Contributions should take the form of case studies (from very old to contempo-

⁵²<https://www.cambridge.org/core/journals/journal-of-institutional-economics>

⁵³<https://joie-blog.net/journal/notes-for-contributors>

rary) and/or contribute to generalization, based on economic but also anthropological, historical, legal, political or sociological approaches.

Projected publication: 2026

Articles should be sent by e-mail, with the subject line: "CFP emergence of currencies", to the following addresses:

- revue.regulation@mshparisnord.fr⁵⁴
- pierre.alary@univ-lille.fr⁵⁵
- jerome.blanc@sciencespo-lyon.fr⁵⁶

Authors are asked to follow the instructions carefully, including the editorial recommendations (formats and styles), details of which can be found at <https://journals.openedition.org/regulation/1701>

Submission Deadline: 30 May 2025

SASE Montreal Conference on "Inclusive Solidarities: Reimagining Boundaries in Divided Times" (Montreal/online, July 2025)

1-3 July 2025 (virtual) / 9-12 July 2025 — Montreal, Canada

Solidarity is a central value practiced across social and labor movements and a key principle underpinning social democracies. It is also a term with many meanings, referring to the cohesion of groups, the development of social policy and welfare states, or the goals and tactics of labor and social movement organizations. Solidarity in all its forms involves an act of political and social imagination – to identify who one is willing to act in solidarity with, or who are the members of one's 'imagined community' (Anderson 1983). How community is defined, and how the boundaries around that community are drawn or imagined, have implications for who is included and excluded in collective action to redistribute power and resources, to demand rights, and to fight oppression.

The theme of this year's SASE meeting recognizes the importance of reimagining the boundaries that define commitments to and practices of inclusive solidarity, at a time when the most visible trends are toward intensified divisions. Tens of thousands of lives have been lost in wars, invasions, and violent conflicts over the past year alone. Climate

⁵⁴<mailto:revue.regulation@mshparisnord.fr>

⁵⁵<mailto:pierre.alary@univ-lille.fr>

⁵⁶<mailto:jerome.blanc@sciencespo-lyon.fr>

⁵⁷<https://journals.openedition.org/regulation/1701>

change is fueling displacement and famine, while attempts to mitigate carbon emissions encourage organizing for and against policies to reform farming, manufacturing, and energy production. Far right political parties have experienced growing support, with recent major election wins in Europe and Latin America – and a rising share of the popular vote in many countries world-wide. And multinational companies and their investors continue to adapt to a post-COVID global economy through pursuing particularistic interests within and across national boundaries, from opposing proposed regulation of AI and platform work to challenging the right to strike as a critical dimension of the ILO’s fundamental right to freedom of association.

While there are many examples of developments that are driving up inequality, precarity, and exclusion, these are also contested by creative movements that seek to build worker and citizen power based on more inclusive and participatory forms of solidarity. These take different forms, from a recent wave of labor organizing and strikes in the US to global racial and gender justice movements to international campaigns to improve labor and environmental practices across global supply chains.

The task of both identifying the challenges to solidarity and studying its changing forms, practices, and impact raises a number of questions for researchers and practitioners. How do individuals, organizations, and states confront divisive ideologies and political movements? What role do foundational social, political, and economic stratifications and established institutions play in exacerbating these divisions? And which institutions (old or new) serve as resources for bridging them? In what ways do multinational companies and financial actors benefit from these trends, and how do they adapt their own strategies in response to the changing scale and scope of regulation? In what ways are labor and social movements responding? How do they overcome or transform potential identity-based fragmentation to build more inclusive, intersectional forms of solidarity? And under what conditions do they succeed – in reembedding capital in ways that tie it to more solidaristic social commitments or in transforming capitalist ownership and power relations? What role do nation-states and political parties play in fostering inclusion or exacerbating divisions – and in encouraging alternative strategic choices by different stakeholder groups?

The location of our meeting in Montréal, Canada, is ideal for investigating these questions. Québec’s history is marked by frequent reimaginings of the boundaries defining solidarity and the practices that underpin it – from European colonization, the displacement of Indigenous Peoples, and centuries of religious or cultural and nationalist conflict; to the ‘Quiet Revolution’ of the 1960s that established a more inclusive welfare state and industrial relations institutions. Québec is known for its progressive policies supporting women’s rights, migrant integration, and Indigenous self-government; for the strength and creativity of its labor movement; for efforts to embed capital through worker investment funds and public investment; and for ongoing conflicts over citizenship rights and political self-determination. In short, it is both a model for reimagining more inclusive approaches to solidarity, while also typifying the many contradictions that mark the

path to drawing and redrawing boundaries around different imagined communities.

The 2025 SASE Annual Meeting welcomes submissions that engage with and beyond these themes — in our association’s tradition of multi-scalar, multi-disciplinary research that subjects a broad range of socio-economic developments and paradigms to critical analysis. We look forward to bringing together a diverse community of international scholars to join our SASE community in Montréal.

For further information on submission guidelines and submission please visit the [website](#)⁵⁸.

Submission Deadline: 16 December 2024

World Economic History Congress: “Collective action in local common-pool resources: water crises from a global economic historical perspective” (Lund, July/Aug. 2025)

28 July - 1 August 2025 — Lund, Sweden, World Economic History Congress

Abstract

Water crises have been a constant feature of human history. Yet the growing need to secure water for human consumption, to produce food, and meet the demands of cities and industry has arguably run up against physical limitations. At present, only three percent of all water is freshwater, of which less than one percent remains available for human needs. As water crises demand the same attention and actions as climate change (Stern Report 2006) and biodiversity crises (Dasgupta Review 2021), this session asks for comparative historical analysis of communities’ initiatives to care for, share, or recharge surface or groundwater resources in places with response pressure.

A growing body of scholarship shows that any collective exploitation of common-pool resources tends to result in a social dilemma, requiring collective action. Groundwater as a common pool resource (CPR) faces an even greater challenge, its innate invisibility, and hence a higher propensity for overexploitation. If no action is taken for its preservation, (over)use might result in the collapse of the common in due course (Ostrom 1990). The majority of studies on these types of resources tend to be modern cases, with limited attention to historical long-term processes. Several recent studies have significantly contributed to filling the gap providing empirical and methodological contributions to the analysis of CPRs over time (see De Moor 2015; De Moor et al. 2021; Haller et al. 2019). Fresh groundwater however tends to be overlooked in the field.

⁵⁸<https://sase.org/event/2025-montreal/#submission-guidelines>

The analysis of underground water calls for a transnational and interdisciplinary approach, as the levels of water in one location are often determined by actions elsewhere which, in turn, might affect cloud formation and rainfall (a key variable in studies of water-intensive agriculture -Nath 2023, see also Hayami 1976 and Oshima 1986). Recent research is placing the nexus between water and economic development at the center (see Roy 2021, 2022). Yet, historical records on domestic and non-domestic water use are discontinuous, incomplete, or non-existent. Furthermore, comprehensive and consistent time series worldwide are still lacking.

Consequently, the aim of this session is to place the study of water into a historical context and its linkages with other local or global common pool resources such as land, forests, and the less visible ‘ecosystem services’ over time. In general, submissions should ideally focus on sustainability challenges and how the past can guide today’s decisions. The organizers particularly welcome contributions analysing diverse collective responses (e.g. sanctioning, self-govern) to address the so-called ‘tragedy of the commons’ (Hardin 1968).

Participants are welcome to submit an abstract of max 500 words before 30 October 2024 to mlj6@st-andrews.ac.uk⁵⁹. Acceptance will be communicated within a month after the deadline.

The session counts already with the participation of the following scholars:

- Prof. Thithankar Roy, LSE – Commentator
- Prof. Cristina Chaminade, Lund University and Ingenio (CSIC-UPV)
- Prof. Giancarlo Macchi, Siena University
- Pro. Leidys Murillo, Universidad de Sucre, Colombia, and Kimberly Montanez, Lund University
- Dr. Andres Palacio, Lund University, and Dr. Montserrat López Jerez, University of St Andrews

Organisers: Andrés Palacio (Lund University), and Montserrat López Jerez (University of St. Andrews)

Submission Deadline: 30 October 2024

⁵⁹<mailto:mlj6@st-andrews.ac.uk>

YSI Pre-JSHET Conference Workshop and JSHET 2025 Conference (Japan, May 2025)

YSI Pre-Conference Workshop: 23 May 2025 — JSHET 2025 Conference: 24-25 May 2025

YSI Pre-JSHET Conference Workshop: "Economic Thought and Philosophy"

The YSI History of Economic Thought working group will host a one-day pre-conference workshop at Hirosaki University on **May 23, 2025**. This workshop provides an in-depth platform for **ten early-career scholars** to present and discuss research with peers and senior academics, focusing on the connection between economics and philosophy. Key questions for reflection include:

- How has the relationship between philosophy and economics evolved?
- What historical ties exist between early economic thought and philosophy?
- Are contemporary economic theories still philosophically grounded?

The broad theme aims to attract participants from diverse academic backgrounds, including the history of economic thought, philosophy of economics, and history of philosophy.

Workshop Format

Participants will pre-circulate written material (4,000 words) before the workshop, with sessions organized to facilitate presentations and discussions. **YSI will provide accommodation and limited travel stipends** for selected participants. Local scholars in Japan are especially encouraged to apply and engage in this event.

Eligibility

- Young scholars (Master's, doctoral students, post-docs, early-career scholars)
- Members of the YSI History of Economic Thought Working Group
- Attendees of the JSHET Conference

Submission Requirements

Submit a short abstract (max. 300 words) through the provided form by **November 8, 2024**.

JSHET 2025 Conference (89th)

The Japanese Society for the History of Economic Thought (JSJET) will hold its 89th conference at Hirosaki University on **May 24-25, 2025**, co-hosted by the Faculty of Humanities and Social Sciences. This annual event is an excellent opportunity for presenting research on economic thought's historical evolution and is open to papers in English.

- **Abstract Submission:** Submit a proposal with a 600-word abstract via the [Application Form](#)⁶⁰ by **November 8, 2024**.
- **Notification:** The Conference Organizing Committee will announce accepted proposals by January 2025.
- **Conference Program:** Available in February 2025.

Fees

- **Application Fee:** Free
- **Attendance Fee:** 6,000 yen for non-JSJET members presenting at the conference
- **Additional Fees:** Reception and lunch boxes will incur extra charges.

Conference Organizing Committee Contact

- **Nanako Fujita** (Nagoya City University)
- **Email:** fujita@econ.nagoya-cu.ac.jp

Clarification on Submissions

Submitting a paper for the **JSJET Conference** does not automatically include an application to the **YSI Pre-Conference Workshop**. Those interested in both events must submit separately:

- **YSI Workshop Application:** Complete the specified form by **November 8, 2024**.
- **JSJET Conference Submission:** Follow the **JSJET call for papers** instructions.

For application and further information please visit the [website](#)⁶¹.

⁶¹<https://jshet.net/eng/conference/next/89th/>

Call for Participants

CHE Inaugural Conference - Center for Heterodox Economics (Tulsa, February 2025)

6-8 February 2025 — Tulsa, Oklahoma, USA

The Center for Heterodox Economics (University of Tulsa) announces its launch and the 2025 Inaugural Conference. It will also have pre-conference program for students on 5th of February, jointly organized with Young Scholar Initiative (YSI).

Themes and speakers:

- economics of Marx: Riccardo Bellofiore, Nikolaos Chatzarakis, Deepankar Basu, Carolina Alves, Ramaa Vasudevan
- inflation & austerity & conflict: Clara Mattei, Costas Lapavitsas, Matias Vernengo, Clara Brenck, Pedro Rossi
- community organizing and class consciousness: Wing Lam, JoAnn Lum, Kelsey Royce, Thiago Vasconcelos, Brittany Mcmillian, Guillermo Glenn
- the political economy of occupied Palestine: Raja Khalidi, Lamees Farraj, Shir Hever, Ibrahim Shikaki
- economics of Sraffa: Andres Lazzarini, Scott Carter, Saverio Fratini, Jonathan Smith, Giovanna Vertova
- approaches to economic history and the history of capitalism: Stephen Maher, David McNally, Branko Milanovic, Trevor Jackson, Robert Brenner
- probabilistic political economy: Ellis Scharfenaker, Bruno Theodosio, Paulo D Santos, Doguhan Sundal
- the exploding crises of care and climate under capitalism: Luiza Nassif Pires, Sirisha Naidu, Debora Nunes, Anamary Linares, Suzi Weissman

For more information and registration, please visit

Economists' Philosophy Day, 3rd edition (online, Nov. 2024)

21 November 2024 — online

In October 2005, the UNESCO General Conference declared World Philosophy Day on the third Thursday of November every year, recalling that ‘philosophy is a discipline that encourages critical and independent thought and is capable of working towards a better understanding of the world and promoting tolerance and peace.’

In this spirit, J Philos Econ proposes to celebrate Economists' Philosophy Day by organizing online plenary sessions on scientific communication dedicated to the philosophical milestones by which our science has been challenged, for better or for worse.

This year, the event brings together contributions on the theme of Democracy for sustainable life. For the agenda and registration, see the link at https://jpe.episciences.org/public/Call_Economists

Extended Deadline: 4th School of Advanced Studies in the Reappraisal of the Surplus Approach

Centro Sraffa is glad to announce that the *Call for applications* for the fourth edition of the **School of Advanced Studies in the Reappraisal of the Surplus Approach** is now [online](#)⁶⁵ .

The School welcomes applications by PhD students at any stage of their PhD as well as post-doc researchers. Candidatures by undergraduate and Master students will be considered only if their profile is exceptionally strong.

Participants will be introduced to the analyses of the Classical economists and to the modern research conducted within the reappraisal of their theoretical framework. The activity will embrace different topics, ranging from the theory of value and distribution to the study of economic growth, also dealing with applied analyses and policy issues.

The registration fee is 130€ and includes teaching materials, coffee breaks and lunches. Centro Sraffa, with the contribution of the Bank of Italy, grants scholarships for a small number of participants, who will be awarded a contribution to travel and/or staying

⁶³<https://calendar.utulsa.edu/event/che-inaugural-conference/>

expenses. Participants may also apply for financial support from Young Scholar Initiative of INET (Institute for New Economic Thinking). Please find more information in the [Call for applications](#)⁶⁶ .

Important dates:

- Deadline for application: 31 October 2024
- Notification of acceptance: 5 November 2024
- Deadline for registration: 15 December 2024
- Winter School dates: 13-18 January 2025

Rethinking Economics: "Is Economics Education Fit for the 21st Century?" (London/online, November 2024)

November 5, 6:30 — University College London& online

Rethinking Economics will launch their national report: Is Economics Education Fit for the 21st Century?

Speakers include:

- Ha-Joon Chang, Research Professor at SOAS
- Yuan Yang MP, Founder of Rethinking Economics and MP for Earley and Woodley
- Carolina Alves, Associate Professor, Institute for Innovation and Social Purpose, UCL
- Report authors Paddy Nelson and Ross Cathcart, Report Authors, Rethinking Economics
- Students from universities reviewed

Tenth Annual Conference on the History of Recent Social Science (HISRESS) (The Netherlands, June 2025)

University of Amsterdam, the Netherlands; 6 & 7 June 2025

This two-day conference of the Society for the History of Recent Social Science (HISRESS), at the University of Amsterdam in the Netherlands, will bring together researchers working on the history of post-World War II social science. It will provide a forum for the latest research on the cross-disciplinary history of the post-war social sciences, including but not limited to anthropology, economics, psychology, political science, and sociology as well as related fields like area studies, communication studies, design, history, international relations, law, linguistics, and urban studies. The conference, hosted by the Department of European Studies at the University of Amsterdam, aims to build upon the recent emergence of work and conversation on cross-disciplinary themes in the postwar history of the social sciences.

Submissions are welcome in such areas including, but not restricted to:

- The interchange of social science concepts and figures among the academy and wider intellectual and popular spheres
- Comparative institutional histories of departments and programs
- Border disputes and boundary work between disciplines as well as academic cultures
- Themes and concepts developed in the history and sociology of the natural sciences, reconceptualized for the social science context
- Professional and applied training programs and schools, and the quasi-disciplinary fields (like business administration) that typically housed them
- The traffic of social science into science and technology programs
- The role of social science in post-colonial state-building governance
- Social science adaptations to the changing media landscape
- The role and prominence of disciplinary memory in a comparative context
- Engagements with matters of gender, sexuality, race, religion, nationality, disability and other markers of identity and difference

The two-day conference will be organized as a series of one-hour, single-paper sessions attended by all participants. Ample time will be set aside for intellectual exchange

between presenters and attendees, as all participants are expected to prepare unpublished papers (not longer than 10,000 words, excluding footnotes and references) for circulation to other participants and read all pre-circulated papers in advance.

Proposals should contain no more than 1000 words, indicating the originality of the paper. The deadline for receipt of abstracts is February 3, 2025. Final notification will be given in March 2025 after proposals have been reviewed. Completed papers will be expected by May 15, 2025.

****Please note that published or forthcoming papers are not eligible, owing to the workshop format.****

The conference sponsor, [HISRESS](<https://hisress.org/>⁶⁸) (the Society for the History of Recent Social Science), is launching a new journal (*[History of Social Science](<https://www.pennpress.org/journals/journal/history-of-social-science/>⁶⁹)*), to be published by the University of Pennsylvania Press. The journal is [accepting submissions](<https://hss.scholasticahq.com/for-authors>⁷⁰) for its initial volumes.

The organizing committee consists of Jamie Cohen-Cole (George Washington University), Bregje van Eekelen (TU Delft & Erasmus University Rotterdam), Philippe Fontaine (École normale supérieure Paris-Saclay), Leah Gordon (Brandeis University), Jeff Pooley (University of Pennsylvania), and P.W. Zuidhof (University of Amsterdam).

All proposals and requests for information should be sent to [submissions@hisress.org⁷¹](<mailto:submissions@hisress.org>⁷²).

Submission Deadline: 3 February 2025

Workshop on critical macro-finance (Hybrid, November 2024)

SOAS, UK; 6 November 2024

SOAS and the University of Groningen are organising a workshop on critical macro-finance and global challenges. The workshop will be held at SOAS on 6 November at 1-8pm in room DLT (SOAS Main building).

PROGRAMME

12:45 – 13:00 Arrival

Conference Papers, Reports, and Podcasts

30th Annual Conference on Alternative Economic Policy in Europe: "Europe and the world beyond the polycrisis: Possible futures - Video Series"

Under the following [link](#)⁷⁴ you can find parts of the Annual Conference on Alternative Economic Policy in Europe on 12th -14th September 2024 in Vienna/Austria.

Rebuilding Macroeconomics: Green Industrial Policies

Policymakers are looking to accelerate climate action by scaling up low-carbon technologies (renewable energy systems, electrical vehicles) through the creation of new industries and promotion of green value chains. Markets alone cannot drive the transition. Industrial competitiveness, and state-driven structural change can help countries meet net zero and climate commitments. Interventions such as subsidies, standards, and public procurement can be complemented by market-based mechanisms such as carbon pricing. While some elements of this policy approach remain contentious, the issues deserve more discussion, evidence and development of analytical tools and evidence to support decision-making. This inter-disciplinary seminar in association with the World Bank, Coalition for Capacity on Climate Action (C3A) will debate the key components of a successful green industrial strategy.

You can find a link to the video [here](#)⁷⁵ .

Application Deadline: 8 November 2024

Lund University, Sweden

Job title: Postdoctoral fellow in Economic History

Lund University was founded in 1666 and is repeatedly ranked among the world’s top universities. The University has around 47 000 students and more than 8 800 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.

Lund University welcomes applicants with diverse backgrounds and experiences. We regard gender equality and diversity as a strength and an asset.

Lund University School of Economics and Management is one of eight faculties within Lund University. More than 4 000 students and 450 researchers, teachers and other staff are engaged here in training and research in economic history, business administration, business law, informatics, economics, statistics and research policy.

⁷⁶<https://karriere.jku.at/hcm/jobexchange/showJobOfferDetail.do?jobOfferId=8a7ec308926d235201927a6227c17f2a&j=&languageChanged=true>

Lund University School of Economics and Management is accredited by the three largest and most influential accreditation institutes for business schools: EQUIS, AMBA and AACSB. Only just over 100 business schools in the world have achieved this prestigious Triple Crown accreditation.

Postdoctoral fellow in Economic History Economic history

The Department of Economic History is hiring a Postdoctoral Fellow in the Wallenberg Scholar project *Unequal Lives: Socioeconomic Stratification, Life-Course, and Demography from Preindustrial Society to the Welfare State*. The project is funded by the Knut and Alice Wallenberg Foundation and will run to the end of 2029. It is led by professor Martin Dribe and aims to examine the long-term development of demographic inequalities and which forces that have contributed to the unequal lives people are living, not only in economic terms but also in life itself. The project will study different demographic outcomes by socioeconomic status at the individual level from a life-course and long-term perspective and analyze demographic change from the 19th century until today using individual life courses. The research is based on a newly developed data infrastructure – SwedPop – consisting of a number of historical population databases covering the entire population of Sweden to which official health and population registers from the 1960s onward has been linked.

The postdoctoral fellow will work closely with other members of the research group at the Centre for Economic Demography. More specifically the research is based on historical and contemporary population censuses linked to death and migration registers. The research focus will be on mortality, migration and social mobility.

The Fellow must be willing to participate actively in common activities at the Centre and the Department of Economic History. The position involves a limited amount of teaching and/or supervision of Bachelor and Master's Theses.

To be qualified for employment as Postdoctoral Fellow, an individual must hold a PhD in Economic History or related discipline (e.g. Economics, Sociology, Economic Geography, Statistics, History) awarded no more than three years ago (unless the applicant has been on parental leave or leave due to illness). Applications will also be accepted from persons who have not yet completed their PhD, but this condition must be satisfied at the time of employment.

Scholarly proficiency is one of the requirements for employment. The candidate must have demonstrated a high degree of research expertise as manifested in the quality of the PhD dissertation and/or publications. Documented experience of working with historical census data and record linkage is required, as well as documented experience with data management and statistical analysis using STATA.

The evaluation will take personal qualities, such as willingness to collaborate, academic independence, and communication skills, into consideration.

Applications should be written in English and must include:

1. Cover letter
2. Curriculum Vitae
3. Publication list Certificates
4. References, etc

Lund University promotes an equal opportunities code. We encourage both men and women to apply for this position.

The Centre for Economic Demography (CED, www.ed.lu.se⁷⁷) includes numerous researchers active in the fields of economic history, economics, social sciences, and medicine. Affiliated researchers work on economic and social issues connected to demography, from modern as well as historical perspectives. CED is administered by the Department of Economic History, which is a research-intensive department that employs about 70 people: researchers, teachers, technical/administrative staff, and Ph.D. candidates. The department has a large PhD programme and co-ordinates three international Master programmes. The Department has a well-established reputation for wide-ranging research with an emphasis on long-term processes, and with economic theory and quantitative methods as important methodological tools. More information is available at the www.ekh.lu.se⁷⁸.

Lund University is a government agency, which means that you receive special benefits, generous vacation and a favourable occupational pension. Wellness reimbursement and a paid wellness hour are given. Read more on the University's website about being employed at Lund University: [Work at Lund University](#).

The Max Planck Institute for the Study of Societies (MPIfG), Germany

Job title: Postdoctoral researchers (f/m/d) on Political Economy/ Economic Sociology or Political Economy/Sociology of Low-Carbon Transitions

The Max Planck Institute for the Study of Societies (MPIfG) invites applications from postdoctoral researchers (f/m/d) in Social Science in the following areas:

⁷⁷<http://www.ed.lu.se/>

⁷⁸<http://www.ekh.lu.se/en>

- Political Economy (Prof. Dr. Lucio Baccaro)
- Economic Sociology (Prof. Dr. Jens Beckert)
- Political Economy/Sociology of Low-Carbon Transitions (Dr. Leon Wansleben)

The MPIfG offers two-year contracts based on the collective agreement for the public service (TVöD E 13), starting on September 1 or October 1, 2025. The Institute provides an attractive environment for postdoctoral researchers to pursue their own research projects within the scope of its research program.

Scholars of all nationalities who successfully completed their doctoral degree no longer than three years before the start date at the MPIfG are eligible to apply for the post-doctoral program.

Successful candidates are chosen on the basis of scholarly excellence, a research proposal outlining a project to be pursued at the MPIfG (up to three pages), and a job interview. Postdoctoral researchers have an office at the MPIfG and are expected to reside in the Cologne area, work at the Institute, and actively participate in its intellectual life.

The MPIfG conducts basic research on the governance of modern societies. It aims to develop an empirically based theory of the social and political foundations of modern economies by investigating the interrelation between social, economic, and political action. Building on the disciplinary traditions of sociology and political science, the Institute's research program aims to combine and develop the approaches of new economic sociology and comparative and international political economy.

A collaborative and collegial working environment is integral to the MPIfG. Starting from the application process, we are committed to promoting equality of opportunity for all of our employees. The compatibility of career and family is also one of our key concerns, as is the employment of people with disabilities.

We look forward to receiving your [online application](#)⁷⁹ in English or German. Please note that applications by email cannot be considered. For further information on the program and how to apply, please visit the [page](#)⁸⁰ of our website. Applicants will be notified whether or not they have been successful at the end of February.

Application Deadline: 13 December 2024

Trinity College, US (1/2)

Job posting: Assistant Professor of Economics (Labor Economics)

The Department of Economics invites applications for a tenure track assistant professor beginning September 2025, with Ph.D. completed by August 2025. We seek a Labor Economist who is committed to excellence in undergraduate teaching and scholarly research. Trinity College seeks a faculty that reflects the changing demographics of our student body. Our student body is diverse, representing 41 states and 70 countries, with 21 percent U.S. students of color and 50 percent who identify as women. More than 90 percent of students live on campus. Trinity is a highly selective, independent, nonsectarian liberal arts institution located in the capital city of Hartford, CT. With more than 2,100 full-time undergraduate students and 91 graduate students, the college maintains a rigorous academic profile complemented by a vibrant and diverse co-curricular program. We consider our location in a culturally and socioeconomically diverse capital city to be among Trinity's most distinctive assets, and we cultivate strong connections with our surrounding neighbors and with institutions and organizations throughout Hartford and the region. As a preeminent liberal arts college in an urban setting, Trinity College prepares students to be bold, independent thinkers who lead transformative lives.

Teaching duties include Intermediate Microeconomics, elective courses at the 200 and 300 level, and a senior seminar in the candidate's specialization. The teaching load is four courses per year for the first two years and five courses per year thereafter, with one-semester research leave every fourth year. In a cover letter, applicants should carefully discuss areas of teaching and research interests. A separate teaching statement (including your approach to teaching students from diverse backgrounds) should address teaching philosophy and areas of teaching interest. Completed applications, including CV, three letters of recommendation, transcript, teaching statement, a writing sample, and official summaries of teaching evaluations, must be received by November 11, 2024, online at <https://trincoll.peopleadmin.com>⁸¹ to receive full consideration. Virtual interviews will be conducted in early December with on-campus visits taking place in spring 2025. Contact: Mark Stater, Search Committee Chair, at Mark.Stater@trincoll.edu⁸²

Application Requirements:

- External Application URL and Instructions Below
- Letters of Reference Instructions Below

Reference Instructions:

⁸¹<https://trincoll.peopleadmin.com>

⁸²<mailto:Mark.Stater@trincoll.edu>

Three letters of reference are required. Applicants will be asked to list contact information for reference providers, including email address, through <https://trincoll.peopleadmin.com>. Once a completed application is submitted, automatic emails will be generated to each reference provider, directing each referee to a unique URL where he or she must go to upload a letter of recommendation. Applicants using Interfolio (or other dossier service) should provide the unique Interfolio email address for each reference letter writer.

Application Deadline: 31. October 2024

University of Massachusetts Amherst, US

Job title: Assistant Professor of Economics - Open Field

About UMass Amherst

UMass Amherst, the Commonwealth's flagship campus, is a nationally ranked public research university offering a full range of undergraduate, graduate and professional degrees. The University sits on nearly 1,450-acres in the scenic Pioneer Valley of Western Massachusetts, and offers a rich cultural environment in a bucolic setting close to major urban centers. In addition, the University is part of the Five Colleges (including Amherst College, Hampshire College, Mount Holyoke College, and Smith College), which adds to the intellectual energy of the region.

Job Description

The Economics Department of the University of Massachusetts Amherst invites applications for a tenure-system appointment expected to start on September 1, 2025, at the level of Assistant Professor. Fields are open. We encourage applications from candidates in theory and in applied fields, who address current social and economic challenges in a core area of economics, such as macroeconomics, history of economic thought, feminist economics, microeconomics, political economy, industrial organization, environment, international trade and finance, and labor economics. Under exceptional circumstances, candidates at other ranks may receive consideration. Our faculty employ heterodox and mainstream approaches.

Requirements

A Ph.D. in Economics, or a related field by the start date of the appointment. Candidates will be judged on their scholarly research as well as teaching. Rank and salary will be commensurate with qualifications and experience.

Additional Information

⁹¹<https://unil.ch/graduatecampus/en/home.html>

⁹²<https://www.unil.ch/carrieres/en/home/menuinst/emplois/conditions-dengagement-corps-professoral.html>

The Economics faculty members at UMass Amherst work in diverse areas from both heterodox and mainstream approaches. The faculty studies economic theory and applied economics related to multiple dimensions of human well-being and social welfare; how economic opportunities are generated and distributed in society; the interplay between power and institutions and between economic behavior and the performance of the economy. Our Department is committed to fostering a diverse faculty, student body, and curriculum.

Application Instructions

Applicants must apply through the UMass online application system unless they are unable do so. Applicants should submit:

- A letter of interest addressed to Professor Patrick Mason, Chair, Department of Economics, (Crotty Hall, 412 North Pleasant Street, Amherst, MA 01002 USA)
- Curriculum vitae
- One recent research paper
- Evidence of teaching effectiveness
- Names and contact information for three references who are willing to submit letters upon request through the UMass online application system
- A diversity statement that discusses the candidate's skills, experiences, and commitment to teaching and mentoring diverse and historically underrepresented student populations; professional service that assists in achieving equity, inclusion, and diversity; and how the candidate's past or future research addresses fundamental questions important to a diverse and global society.

Review of applications will begin on November 15, 2024, and continue until the position is filled. Preference will be given to applications received on or before November 15, 2024. Candidates will interview remotely beginning in December 2024 with campus visits beginning after January 7, 2025.

Questions can be addressed to [hiring@econs.umass.edu](mailto: hiring@econs.umass.edu)⁹³ and next [link](#)⁹⁴ .

Deadline Application: by 15 November 2024 and continue until the position is filled

University of Missouri-Kansas City, US

Job title: Tenure Track on Heterodox Macroeconomics

Job Description

- E00 – Macroeconomics and Monetary Economics
- E12 – Keynes, Keynesian, Post Keynesian, Modern Monetary Theory
- B5 – Current Heterodox Approaches

The University of Missouri-Kansas City Department of Economics announces a tenure-track or tenure-eligible position at the rank of Assistant or Associate Professor anticipated to begin August 2025. The position requires candidates to be prepared to teach undergraduate and graduate courses in heterodox macroeconomics. Expertise in monetary theory and policy is desirable, as well as the ability to contribute to teaching required and elective courses.

Appointment to the rank of Assistant or Associate Professor requires completed Ph.D. We value candidates committed to improving access to higher education for historically underrepresented students.

This is a 9-month full-time, ranked, tenure-track/tenure eligible faculty position with benefits beginning in Fall 2025 semester.

The UMKC Department of Economics offers BA, MA, and PhD degrees. UMKC's urban location provides excellent opportunities for research and community engagement. Additional information can be found on the department's website: <https://shss.umkc.edu/areas-of-study/economics/index.html>.

Application Deadline

Review of applications begins 11/18/2024 and continues until the position is filled. First-round interviews will be conducted in December 2024 via video conference. Finalists will be invited for a campus visit in Spring Semester 2025.

Minimum Qualifications

A Ph.D. in Economics or a closely related field is required at time of employment.

ABD candidates with an expected degree completion date before August 1, 2025 also will be considered; please provide expected date of award in your application.

Anticipated Hiring Range

Salary is negotiable and commensurate with rank, experience, scholastic achievement, success in funded research, and credentials.

Application Instructions

For consideration, you must apply online at <https://info.umkc.edu/hr/careers/academic-positions/>⁹⁵, click Academic Positions, then navigate to Job Opening ID 53717.

Please complete the online application form and provide:

- A cover letter discussing your engagement with heterodox macroeconomics
- statement of teaching philosophy and effective pedagogy approach[es] for engaging students from different backgrounds and experiences;
- sample of scholarly work;
- curriculum vitae.

Please combine all application materials into one PDF or Microsoft Word document and upload as your resume attachment. Limit document name to 50 characters and do not include any special characters (e.g., /, &, %, etc.).

Additionally, three letters of professional recommendation (including current contact information for reference) should be submitted to the UMKC Department of Economics via www.aeaweb.org/joe/⁹⁶.

- We will contact references and request educational transcripts for applicants who progress to the finalist stage.
- A successful Criminal Background Check is required for hire.
- If you are experiencing technical problems during application, please email umpshrsupport@umsystem.edu.
- For questions about the position, please contact umkcfacultysearch@umkc.edu including the Job Identification number [53717] and name of the position.
- Reasonable accommodations may be requested during the application and recruitment process. If you need an accommodation, please contact the Office of Affirmative Action at 816-235-1323.

Application Deadline

⁹⁵<https://info.umkc.edu/hr/careers/academic-positions/>

⁹⁶<http://www.aeaweb.org/joe/>

Review of applications begins 11/18/2024 and continues until the position is filled. First-round interviews will be conducted in December 2024 via video conference. Finalists will be invited for a campus visit in Spring Semester 2025.

Other Information

UMKC is a public, urban, research university with more than 15,000 undergraduate, graduate, and professional students. It is part of the larger University of Missouri System. Our university is committed to being a model urban university that is recognized for our partnerships with diverse communities to effectively foster a healthy, safe, more economically secure quality of life.

A City on the Rise - Big City Life and Midwest Charm, Kansas City offers the best of both worlds – a vibrant, urban community with midwestern appeal and an affordable cost of living. The university is in one of the most entrepreneurial cities in America, and the metropolitan area has a population of more than 2.4 million. Our UMKC campuses are centered in the hubs of business activity, cultural arts, and health science research engagement. Our community boasts championship professional athletic teams, ethnic and local cuisine, and a rich history of music and performing arts. Our beautiful state provides rivers, lakes, biking/hiking trails, and mountains for outdoor enthusiasts, all within an easy drive. <https://www.visitkc.com/#sm.00137o3cv13knf6n10pu3xe9yy7k2>⁹⁷

Benefit Eligibility

This position is eligible for University benefits. As part of your total compensation, the University offers a comprehensive benefits package, including medical, dental and vision plans, retirement, and educational fee discounts for all four UM System campuses. For additional information on University benefits, please visit the Faculty & Staff Benefits website at <https://www.umsystem.edu/totalrewards/benefits>⁹⁸.

Values Commitment

We value the uniqueness of every individual and strive to ensure each person's success. Contributions from individuals with diverse backgrounds, experiences and perspectives promote intellectual pluralism and enable us to achieve the excellence that we seek in learning, research and engagement. This commitment makes our university a better place to work, learn and innovate.

In your application materials, please discuss your experiences and expertise that support these values and enrich our missions of teaching, research, and engagement.

University of Venice, Italy

Job title: Research position in climate finance

We are hiring a researcher within the ESG UPTAKE project (<https://www.unive.it/pag/49196>¹⁰⁰) that aims to mainstream a science-based framework for ESG and climate risk assessment (data, models, scenarios) and climate stress testing to 14 European central banks and financial regulators. Furthermore, for selected authorities, we will develop an assessment of the insurance protection gap and propose policy solutions.

What to expect:

- Be part of a young, international, and dynamic research team in climate economics and finance led by Prof. Irene Monasterolo.
- Close collaboration with Nationally Competent Authorities, the European Commission, and the research consortium (composed of SAFE Frankfurt, University of Venice, Joint Research Center Ispra).
- Support the development of a Stock-Flow Consistent model for the insurance sector, with an application to Italy and Europe.
- Drafting reports, meeting minutes, and agendas following the Grant Agreement.
- Writing scientific articles.

⁹⁹<https://www.umsystem.edu/ums/hr/eoo>

¹⁰⁰<https://www.unive.it/pag/49196>

- Initial 1-year contract (renewable based on performance) based at WU Wien in Vienna.
- Competitive salary, excellent working facilities, and location in one of the best areas of Vienna.

About you:

- Completed MA or PhD in Economics, Finance, Statistics, Physics, or a related field.
- Experience with macro-financial and financial risk modeling (Stock-Flow Consistent models, Agent-Based models, stress tests).
- Familiarity with climate finance and with the EU financial regulation.
- Work experience in the industry or in policy institutions or regulators, particularly within the European financial institutions and insurance sector, is welcomed.
- Proficiency with coding in Matlab and Python; experience with PyTorch is beneficial.
- Familiarity with GitHub, MS Office, and LaTeX.
- Fluency in English; German is beneficial but not required.
- Willingness to travel within Europe for conferences and project meetings.

How to apply:

- Please send a CV, letter of motivation, a writing sample, and a code sample to irene.monasterolo@wu.ac.at.
- Selected candidates will be invited to an initial interview. They will be asked to complete a small assignment.

Vienna University of Economics and Business, Austria

Job title: PhD position in spatial/urban/transport economics

You want to understand how things are connected and make a fundamental impact? We offer an environment where you can realize your full potential. At one of Europe's largest and most modern business and economics universities. On a campus where quality of work is also quality of life. We are looking for support at the

Institute for Spatial and Social-Ecological Transformations (ISSET)

Part-time, 30 hours/week

Starting December 01, 2024, and ending after 6 years

Qualified candidates with disabilities are especially encouraged to apply for this position. If necessary, a reduction of the extent of employment is possible.

Are you passionate about addressing contemporary transport and mobility challenges while contributing to spatial and social-ecological transformations? We are seeking a motivated prae-doc to join the Institute for Spatial and Social-Ecological Transformations (ISSET), specifically the research unit Transformative Urban and Regional Economics.

What to expect

- **Writing your dissertation:** Most of your working time will be dedicated to academic advancement with the goal of earning a doctorate. In cooperation with the team at ISSET, under the guidance of dissertation supervisors, you will develop your own research ideas and implement them. The goal is to present the results at international workshops and conferences and to publish them in leading journals.
- **Teaching:** You will design and deliver courses yourself and contribute to teaching activities of your colleagues.
- **Student supervision:** You will support students in the preparation of their bachelor theses.
- **Taking on organizational tasks:** You will assist the institute with internal processes and its external presentation.
- **Participation in research projects:** You will have the opportunity to deepen your knowledge and apply your skills and abilities in various research contexts.

What you have to offer

- **Academic degree:** You have a diploma/master's degree in Economics/Socioeconomics (or related fields) that qualifies you for enrollment in a doctoral program at WU. You have excellent grades and your diploma/Master thesis demonstrates your ability and interest in conducting your own research.
- **Expertise and interest in spatial, urban, and/or transport topics:** You have taken specializations in these fields, and/or have a strong interest in them.
- **Quantitative research methods and tools:** You have excellent knowledge of statistics/econometrics and corresponding software tools (e.g., Stata, R, Python).

- **Language skills:** You have excellent English skills, both spoken and written. Knowledge of German is desirable.
- **Commitment:** You work independently, take initiative, are reliable, and self-organized.
- **Willingness to use multimedia teaching methods:** You are prepared to use multimedia teaching and learning formats.

Questions may be directed to Assoz.Prof. PD Stefanie Peer Ph.D.: stefanie.peer@wu.ac.at

What we offer you

- **Inspiring campus life** with over 2,400 employees in research, teaching, and administration and approximately 21,500 students
- **A modern campus with spectacular architecture** in the heart of Vienna
- **Excellent accessibility by public transportation**
- **Meaningful work** in an open-minded, inclusive, and family-friendly environment
- **Flexible working hours**
- **A wide range of benefits**, from an in-house medical officer to athletic activities and a meal allowance to a variety of employee discounts

Curious? Visit our website and find out more at www.wu.ac.at/benefits¹⁰¹

The minimum monthly gross salary amounts to €2,684.10 (14 times per year). This salary may be adjusted based on job-related prior work experience. In addition, we offer a wide range of attractive social benefits.

Institute for Spatial and Social-Ecological Transformations (ISSET): <https://www.wu.ac.at/en/institute-for-spatial-and-social-ecological-transformations-isset/isset>¹⁰²

Transformative Urban and Regional Economics: <https://www.wu.ac.at/en/institute-for-spatial-and-social-ecological-transformations-isset/research/transformative-urban-and-regional-economics>¹⁰³

Do you want to join the WU team?

¹⁰¹<http://www.wu.ac.at/benefits>

¹⁰²<https://www.wu.ac.at/en/institute-for-spatial-and-social-ecological-transformations-isset/isset>

¹⁰³<https://www.wu.ac.at/en/institute-for-spatial-and-social-ecological-transformations-isset/research/transformative-urban-and-regional-economics>

Then please submit your application by November 06, 2024 (ID 2233). We are looking forward to hearing from you!

Application Deadline: 6 November 2024

Awards

Call for Nominations: 2025 HES Distinguished Fellow Award

The History of Economics Society invites nominations for the 2025 Distinguished Fellow Award. Each year the HES bestows the honour of 'Distinguished Fellow' on a scholar who may be so honoured in light of their exemplary contributions to scholarship in the history of economics and/or to their exemplary contributions to the success of the Society.

Anyone is eligible to nominate a candidate for this award. If you would like to nominate someone, please send to Marcel Boumans (committee chair):

- a CV of the nominee
- a cover letter summarizing the achievements of the candidate
- two letters from other scholars who support the nomination

Please send the nomination package by **November 15** to: Marcel Boumans m.j.boumans@uu.nl¹⁰⁴

Call for Nominations: Best Dissertation in the History and Methodology of Economics in memory of Joseph Dorfman

The HES Society invites to apply for the **Best Dissertation in the History and Methodology of Economics in memory of Joseph Dorfman**.

The winner will receive a stipend of \$500 plus travel expenses up to \$500 to attend the 52nd annual conference of the History of Economics Society (June 28-30, 2025 at the University of Richmond, Virginia).

¹⁰⁴<mailto:m.j.boumans@uu.nl>

All dissertations in the history of economics and economic methodology, written in English, completed and defended during the last two years (September 2022 to August 2024), are eligible.

The selection committee will consider all nominated dissertations, with self-nominations permitted.

This year, the selection committee is formed by **Jean-Baptiste Fleury** (HDEA, Sorbonne Université), **Juan Acosta** (Universidad del Valle), and **Marianne Johnson** (University of Wisconsin).

To nominate a dissertation for the Dorfman Prize, **please contact the Chair of the committee:** jean-baptiste.fleury@sorbonne-universite.fr¹⁰⁵.

Nominations Deadline: 1 December 2024.

Call for Nominations: Joseph J. Spengler Best Book Prize

The History of Economics Society¹⁰⁶ welcomes nominations for the 2025 Joseph J. Spengler Prize for the best book in the history of economics.

Books and scholarly monographs in the history of economics published in calendar years 2022 through 2024 are eligible. We especially encourage nominations from HES members and self-nominations by authors. Details about the prize and nomination process can be found at <https://historyofeconomics.org/awards-and-honors/spengler-book-prize/>¹⁰⁷

All received nominations will be appraised by the selection committee of Alexandra Hyard (chair), Stephen Meardon, and Juan Pablo Couyoumdjian.

Nominations Deadline: 31 December 2024.

Winner Announcement: AFEE Journal of Economic Issues Editor's Prize 2024

Congratulations to the 2024 winners of AFEE's Journal of Economic Issues Editor's Prize; Wolfram Elsner, University of Bremen, and Karol Gil Vasquez, Nichols College.

Central Banking and Monetary Policy in the G20: Paradigms and Challenges

By Irfan Kalayci (Editor) — Vernon Press, 2024

Behind productive and prosperous economies are independent central banks that implement effective monetary policies. This observation is especially valid for the G20, which comprises the world's top twenty economies in terms of gross domestic product and the largest stakeholders of the global economic system. These economies include

Argentina, Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Italy, Japan, Mexico, Russia, Saudi Arabia, South Africa, South Korea, Turkey, the United Kingdom, the United States, and the European Union.

Three features of this book, which focuses on central banking and monetary policy in the G20, an intergovernmental platform, stand out:

Firstly, as contemporary theories and global practices confirm, the main purpose of central banks is to ensure monetary and price stability, not despite the government but in cooperation with it. This principle is strongly emphasized here. Governments, which must maintain fiscal discipline, are key to the success of central banks in combating inflation and deflation.

Secondly, since the authors of the book chapters come from various countries and academic institutions, the book offers a range of perspectives and intellectual richness. Without deviating from the book's main axis, the authors examine the changing paradigms in central banking and the increasing challenges of monetary policy. This examination is based on developed and emerging economies, integrations, financial organizations, and economic crises within the G20, informed by significant sources.

Thirdly, this book offers university researchers, professional business practitioners, and curious readers the opportunity to explore and reflect on new concepts such as green central banking, digital money, and interest-free monetary policies, which have gained prominence in the wake of the global COVID-19 pandemic, alongside mainstream topics. It is hoped that this book, consisting of 14 chapters, will inspire those who wish to conduct new and renewed academic studies on global central banks and monetary policies and will fill a gap in the literature.

Design of a Worker Cooperatives Society An Alternative Beyond Capitalism and Socialism, and the Transition Towards It

By Geert Reuten — Haymarket Books, 2024

What would an alternative to contemporary capitalism look like? In this book, Geert Reuten sets out a detailed design of a democratic society organised in worker cooperatives, followed by an equally detailed democratic transition to it. In Reuten's convincing design, Workers constitute the single economic class. However, unlike in capitalism, there is no class that owns the means of production. The legal structure of worker cooperatives is such that workers have full rights to the fruits of the cooperative without owning it, and yet the state does not own the cooperatives either. Interestingly, worker

¹⁹⁷<https://vernonpress.com/book/2122>

councils in the economic and state domains vote on all economically relevant matters. In Reuten's compelling vision, the free choice of occupation and of specific consumer goods is even larger than in capitalism.

Technology and Oligopoly Capitalism

By Luis Suarez-Villa — Routledge, 2023

Technology and Oligopoly Capitalism is a major contribution to our understanding of how technology oligopolies are shaping America's social, economic, and political reality.

Technology oligopolies are the most powerful socioeconomic entities in America. From cradle to grave, the decisions they make affect the most intimate aspects of our lives, how we work, what we eat, our health, how we communicate, what we know and believe, whom we elect, and how we relate to one another and to nature. Their power over markets, trade, regulation, and most every aspect of our governance is more intrusive and farther-reaching than ever. They benefit from tax breaks, government guarantees, and bailouts that we must pay for and have no control over. Their accumulation of capital creates immense wealth for a minuscule elite, deepening disparities while politics and governance become ever more subservient to their power. They determine our skills and transform employment through the tools and services they create, as no other organizations can. They produce a vast array of goods and services with labor, marketing, and research that are more intrusively controlled than ever, as workplace rights and job security are curtailed or disappear. Our consumption of their products—and their capacity to promote wants—is deep and far reaching, while the waste they generate raises concerns about the survival of life on our planet. And their links to geopolitics and the martial domain are stronger than ever, as they influence how warfare is waged and who will be vanquished.

Technology and Oligopoly Capitalism's critical, multidisciplinary perspective provides a systemic vision of how oligopolistic power shapes these forces and phenomena. An inclusive approach spans the spectrum of technology oligopolies and the ways in which they deploy their power. Numerous, previously unpublished ideas expand the repertory of established work on the topics covered, advancing explanatory quality—to elucidate how and why technology oligopolies operate as they do, the dysfunctions that accompany their power, and their effects on society and nature. This book has no peers in the literature, in its scope, the unprecedented amount and diversity of documentation, the breadth of concepts, and the vast number of examples it provides. Its premises deserve to

¹⁹⁸<https://www.haymarketbooks.org/books/2557-design-of-a-worker-cooperatives-society>

be taken into account by every student, researcher, policymaker, and author interested in the socioeconomic and political dimensions of technology in America.

Work, Pay, and Sustainability: A New Economics of Labor

by Daphne T. Greenwood²⁰⁰ — Polity Books, 2024

Daphne Greenwood presents the first comprehensive introduction to pluralist labor economics. She expands the economics toolbox with theories taken from institutionalist, feminist, social, ecological, and stratification economists. Pluralists, she explains, focus on how formal and informal institutions affect the distribution of productivity dividends—and how this has evolved over time. Pluralists are concerned with job quality as well as financial compensation. They acknowledge the modern-day abundance created by technology, but advocate for institutional changes to direct it in equitable and sustainable ways.

Building on the work of many heterodox economists, Greenwood introduces wage and employment models that are embedded in the economy, environment, and society. Beginning with evidence on work and pay in the US today, she explains why tools for analyzing commodity exchange are not sufficient for analyzing labor relationships. She brings bargaining power to the fore, analyses dynamic monopsony, and looks at the role of wealth as well as income in framing opportunities. Throughout the book, Greenwood addresses threats to sustainability and equity from unpaid social costs; institutional changes such as financialization and fissured workplaces; as well as race-ethnicity and gender. Among the possibilities explored for improving work and pay are sectoral bargaining, job guarantees, worker-owned cooperatives, and universal basic income.

Call for Applications: Economic POLicies for the Global bifurcation (EPOG-JM)

Economic POLicies for the Global bifurcation (EPOG-JM)²⁰² is an **Erasmus Mundus Joint Master Degree** in economics, supported by the European Union. It offers a world-class integrated Master's programme **on the (digital, socioeconomic, ecological) transition processes** with a pluralist approach and interdisciplinary perspectives.

The main objective of the programme is to give birth to a new generation of international experts, able to define and assess economic policies and evolve within different political, social and regional contexts. Towards this objective, the EPOG-JM Master's programme goes beyond the reach of standard economic theory to include various heterodox/institutionalist political economy approaches.

The full partners (degree awarding institutions) include **a wide set of prestigious institutions**:

- University of technology of Compiègne (UTC),
- Sorbonne University,
- University of Turin,
- Berlin School of Economics and Law,
- University of Rome 3,
- University of Geneva
- University of the Witwatersrand (Wits),
- Vienna University of Economics and Business,
- Federal University of Rio de Janeiro,
- University of Campinas.

It also involves **more than 30 (academic and non-academic) associated partners in Europe and the world**.

Scholarships. The very best students from all over the world will be eligible for **scholarships awarded for 2 years** by the European Commission, based on our selection.

The **Erasmus Mundus scholarship** covers:

²⁰²<https://4751f.r.a.d.sendibm1.com/mk/cl/f/sh/SMK1E8tHeG7uhtDIeiBN82PYowYU/0Z9RefXqyAh0>

- **student participation costs** (tuition fees, full health insurance coverage and any other mandatory costs related to student participation in the course),
- a monthly allowance of **€ 1400 per month (during both academic years)**.

When to apply?

Note that two recommendation letters are needed to apply and have to be provided by the deadline. The course for the new cohort will start in September 2025. **More information and details:** www.epog.eu²⁰³

Frederic S. Lee Heterodox Economics Scholarship

The application for the Spring 2025 semester is now open.

The Frederic S. Lee Heterodox Economics Scholarship was established by Frederic and Ruth Lee in 2014. The Scholarship has awarded over \$86,000 in scholarship money to 26 different students in heterodox doctoral programs.

In order to be eligible, students must be enrolled in a doctoral heterodox economics program in the United States and demonstrate financial need. This scholarship will not provide scholarship aid for dissertation credit hours or for credit hours that are not directly relevant for the completion of the doctoral program's coursework.

Selection criteria include:

- Priority will be given to students who have no scholarship support at all and need the support to continue in their heterodox doctoral program. Students who have only partial scholarship support and need additional support to continue in their heterodox doctoral program will also be considered.
- Preference will be given to students who are interested in working in heterodox microeconomics. Applicants from other fields of study are also encouraged to apply, especially if they are willing to do heterodox economics in an integrative manner (as opposed to adhering to a single heterodox tradition).

Read about the heterodox economics of Frederic S. Lee at <https://sites.google.com/view/leefs>²⁰⁴

Scholarships will be awarded prior to the fall and spring semesters on an annual basis. Scholarships are not renewable; however, previous recipients may reapply.

²⁰³<https://4751f.r.a.d.sendibm1.com/mk/cl/f/sh/SMK1E8tHeGLdcArD12ULJh121Xj0/QX8H0VeZPjIN>

²⁰⁴<https://sites.google.com/view/leefs>

Amount: Varies. Tuition and fees for up to three classes per semester.

Apply Here: <https://gkccf.academicworks.com/opportunities/4561>²⁰⁵

To continue to support graduate students who will be the future of heterodox economics, the Scholarship Fund needs to generate more funds. Donations can be made at <https://gkccfonlinedonations.org/give/leeh00.asp>²⁰⁶

Application Deadline: November 15, 2024

Calls for Support

Review of African Political Economy: Call for Support on Independent Publishing

The journal of Review of African Political Economy has made a successful return to independent publishing, now under a diamond open-access model. Without funding from a global corporate publisher, sustaining the journal and website now relies on subscriptions and donations. Adopting a 'subscribe to open'²⁰⁷ approach has enabled funding for both the online and print editions, with a substantial number of library and personal subscriptions secured, especially following a 50% reduction in previous rates.

The journal is on track to publish four issues this year. The special 50th anniversary issue from September is already [available online](#)²⁰⁸, and notifications have been sent to subscribers. Hosted on ScienceOpen, the journal has seen over 246,000 downloads in 2024 alone, with issues from 1974 onward accessible directly on the platform or via www.roape.net²⁰⁹.

Readers are invited to consider a subscription, either digital or print, as follows:

- **Online-only subscription for four issues per year:** £15 (Africa); £30 (UK); €45 (EU); \$50 (Rest of the World).
- **Online and print subscription:** \$25 (Africa); £50 (UK); €85 (EU); \$90 (Rest of the World).
